To our Alabama SkillsUSA Family,

This is the season when we traditionally take a moment to count our blessings and give thanks. I'm writing you to express my personal gratitude for all you have done for Alabama SkillsUSA. As the "caretaker" of this organization you faithfully support I thank you for the continuing commitment you've made to our students, teachers and administrators as a SkillsUSA supporter. Your commitment to Alabama SkillsUSA underscores your dedication to educational excellence in our state's public schools.

I know that as engaged as you are in your career, family, church, and civic activities you don't always find the time to stop and think about the impact you have on the lives of our SkillsUSA students and advisors. During times of world turmoil and uncertainty it renews our faith to see you as industry leaders still nurturing dreams of brighter futures for your communities, Alabama, and our great nation.

Since the downturn in the global economy, policymakers are suddenly seeing the value of the skilled workers who design, built, and maintain our manufacturing sector and infrastructure. They look to our technicians and craftspeople to help lead us out of recession and to a new prosperity. It's especially heartwarming for me to witness your continuing commitment to the organization that brings people, schools and communities together at a time
